Insurance Made Easy

Just **Click, Buy** and get **Protected** in an instant. Introducing Tune Protect, a newer, faster, and easier way for you to get insured. From personal to motor to travel and even snatch theft, Tune Protect provides a comprehensive range of innovative products to meet your needs. So innovative, that even this newspaper is protected!

Tune Insurance is now Tune Protect

Once known as Tune Insurance, we are now Tune Protect and we are all about Insurance Made Easy. So, why the change? Like you, we too are consumers. We know that purchasing insurance is a complicated process. So why not change the rules and make owning this basic necessity as convenient and customer friendly as possible? As an innovative and growing player in the industry, we are taking the next steps to bridge this gap digitally, turning consumers into insurance policy owners in three simple steps: Click, Buy and Protect!

Typical case scenario:

When a person decides on buying a policy, a number of things happen. First, he/she reads up on the type of insurance plans available. The individual then usually calls the relevant insurance provider for a discussion. If unconvinced, the individual goes to another insurance provider and speaks to another agent. Once satisfied, he/she purchases the insurance and is then required to sign the multi-paged policy and more often than not, the individual signs the document without fully understanding.

Modern case scenario:

What if we told you that you can now simplify this process? All you need to do is go to tuneprotect.com and click on any product that you are interested in, make your purchase online and voila! You are now protected!

You can also get Tune Protect from our mobile app which is available for download on both iOS and Android devices.

In addition, Tune Protect offers a host of products including motor, fire, medical, and travel insurance just to name a few. If you prefer the human touch, just visit our agent closest to you and they will be more than happy to assist you!
